

Position Description: Entry Level Electrical Engineer

Location: Fort Wayne, Indiana

Full-time position

At Design Collaborative, our mission is to improve people's worlds — in everything we do. That includes not only our clients, but our employees. We want our employees to push boundaries, be creative thinkers, and challenge assumptions to better meet the needs of our clients and grow our portfolio. We believe our work makes a difference in our clients' lives, and we pride ourselves in our ability to collaborate and involve them in the process of design.

Key Responsibilities

- Responsible for design and drawing preparation related to the commercial and institutional building construction industry under the guidance of professional engineers
 - Areas of concentration include building power distribution systems, and lighting and low voltage auxiliary systems including fire alarm, security, data networking, and audio visual equipment
- Conduct on-site observations and document site reviews
- Key participant in client and project team meetings
- Comply with company policies

Qualifications

- BSEE graduate in Electrical Engineering or BSArchE, ABET Accredited Program
- Pursuing an Engineer in Training (EIT) professional registration a plus
- Familiarity with Revit a plus
- Ability to meet deadlines and prioritize multiple projects
- No experience needed – we will train you!

Other Skills Preferred

- Exercises sound time management and organizational skills
- Demonstrates strong written and verbal communication
- Ensures an attention to detail when handling projects
- Ability to prioritize time and multitask
